INDEX TO TROPICAL AGRICULTURE

Index to Volume X—January to December, 1933.

Nos.	Months.	Pages.
1	January	1-28
2	February	29-56
3	March	57-88
4	April	89-116
5	May	117-148
6	June	149-180
7	July	181-208
8	August	209-236
9	September	237-264
10	October	265-300
11	November	301-332
12	December	333-356

College News Bulletins.

January, April, July, October 16

GENERAL INDEX.

Pages.

A.

Adco 34
Agriculturist, Experimentation and Applied Statistics for the Practical 267-76, 303-11, 346-51
Alcohol, Power 73
Alkaline and Saline Soils 35-40
Animal Nutrition in the Tropics, The Need for Research in 181-82
Annatto, The 17
Antigua, Soils of 150
Anti-Tsetse Clearings, Task-work *versus* Day-Work Methods in 249-54
Appreciation, Prof. H. A. Ballou .. 353
Arrowroot in St. Vincent, Maladies affecting 183-88
Auximone Nutrition 18-21

B.

Ballou, Prof. H. A., Appreciation .. 353
Bamboo Art Silk from India 302
Banana Diseases, V 6
do. in Brazil, Cultivation and Diseases of the, I 192-97

Pages.

B.—*Continued.*

CULTIVATION AND DISEASES OF THE BANANA IN BRAZIL—I.

Fig. 1.—An alluvial area supporting an excellent stand of the Giant Fig variety 194
Fig. 2.—A good example of a broad valley supporting extensive stands of bananas 194
Fig. 3.—A well-developed plant of the Cavendish variety prior to the emergence of the bunch, growing on " tabatinga " soil .. .. on viii
Fig. 4.—A broad alluvial valley entirely devoted to banana cultivation in the State of Sao Paulo .. on viii
Fig. 5.—Extension of banana cultivation from the plain to the hillside .. .. .. on ix
Fig. 6.—An early stage in the development of a banana plantation .. .. on ix
Fig. 7.—Shows the poor stature of plants on derelict land after 15 years continuous cropping .. 195
Fig. 8.—Shows the fine stand of plants obtained as the result of deep implemental tillage .. 195
Fig. 9.—Type of pulley system installed to facilitate bringing out of fruit from the steep hillside cultivations 195
Fig. 10.—Reaping operations 204
Fig. 11.—Bagged fruit being collected at a railway siding 204
Fig. 12.—Bagged fruit being stowed in a barge 204
Fig. 13.—Typical banana barges filled with fruit waiting to be towed down the river .. 204

CULTIVATION AND DISEASES OF THE BANANA IN BRAZIL—II.

Fig. 14.—Diseased plant 209
Fig. 15.—Diseased plant with well-developed bunch 209
Fig. 16.—A diseased area which has been replanted 209

TASK-WORK *v.* DAY-WORK METHODS IN ANTI-TSETSE CLEARINGS.

Fig. 1.—Oblique aerial photograph of a typical Shinyanga Clearing taken from 1,000 feet .. 250
Fig. 2.—Oblique aerial photograph of typical Shinyanga Bush taken from 1,000 feet .. .. on vi
Fig. 3.—" Piling " .. .. on vii
Fig. 4.—The charred stump after burning the pile .. .. on vii
Fig. 5.—" Slicing " .. .. on vii
Fig. 6.—Axe and Panga 251
Fig. 7.—Ngongho River Clearing. A small thicket 251
Fig. 8.—Ngongho River Clearing. *Commiphora Schimperi* and *Lannea humilis* trees .. 251
Fig. 9.—Ngongho River Clearing. *Acacia-Commiphora* bush 251

THE USE OF THE TRACTOR IN TRINIDAD FOR SUGAR-CANE CULTIVATION.

1. The Hydraulic Hoist as fitted to a Caterpillar ' Thirty ' 282
2. The ploughing unit in operation 282
3. A well ploughed field in a condition to utilise the effects of ' weathering ' 282
4. A three-furrow disc plough at work in heavy clay soil covered with a dense growth of grass and bush .. .. on vi
5. Easy work for the disc plough .. .. on vi
6. One type of subsoiler or ' Chisel ' as used on unploughed land .. .. on vii
7. The ' Chisel ' in action .. .. on vii
8. Intercultivation of the young ratoons 283
9. Typical ploughing scene on the undulating cane fields of Southern Trinidad 283

BANANA STORAGE.

Fig. 1.—Giant Governor plant with half-full bunch 336
Fig. 2.—Young bunch of Giant Governor 336
Fig. 3.—Good commercial bunches of Giant Governor, reaped at the correct stage of maturity for transport to British and European Markets. (2 nine-hand bunches and one eleven-hand bunch.) This photograph was taken when bunches were being removed to the ripening room .. .. on viii
Fig. 4.—Top and second hands of the Giant Governor, illustrating the tendency of fingers to fall apart when bunches are held with the proximal hand uppermost .. .. on ix
Fig. 5.—Mechanical notching of finger-stalks and pitting disease in the Giant Governor .. on ix
